

We're working in your area

12 July 2021

Sydney Water is working to expand our network to meet increased demands from growth in South West Sydney. In Kemps Creek, we are installing 4.5 km of new water main to ensure our existing and future customers continue to have reliable access to clean drinking water.

Upcoming work – Western Road closure

We have now completed installation of assets on Cross Street in front of Kemps Creek Public School and Christadelphian Heritage College. We will return to Western Road to continue installation of the pipeline between Cross Street and Elizabeth Drive.

To complete this we need to implement a **full closure of Western Road between Cross St & Elizabeth Drive during the daytime.**

This work will involve:

- changes in local traffic
- excavating and installing pipes and valves along Western Road
- pouring concrete into the trench to encase the pipe
- backfilling the trench and temporarily restoring the impacted area.

The work will take place for a period of **up to 3 weeks** between **Monday 19 July and Saturday 7 August 2021**, weather permitting.

Traffic changes

A section of Western Road between Cross Street and Elizabeth Drive will be closed to traffic during our work hours. A detour will be in place via Elizabeth Drive, Devonshire Road and Cross Street. Please see map overleaf. Local access to Overett Avenue will be maintained, however there may be some delays. Please allow extra time in planning your journey.

We will open one lane to traffic outside of our work hours on a stop-go arrangement using temporary traffic lights. Please see map over the page. We appreciate that this is a busy area and we thank the local community for their patience while we deliver these works.

Upcoming work – valve installation

After installation of the pipeline is complete, we will install a valve on Western Road to control the pressure of the water as it enters homes. There will also be a small electrical cabinet and pit installed. During this work, we will maintain one lane of traffic on a stop-go arrangement. Please see map overleaf. This work will take place for a period of **up to 4 weeks** between **Monday 9 August and Saturday 4 September**, weather permitting.

Our work hours

- 7 am to 6 pm Monday to Friday
- 8 am to 1 pm Saturday

Where do I get more information and help?

To know more, please contact our community engagement team on **1800 678 098** or email us at **ProMac@sydneywater.com.au**. You can also find out more about the ProMac project by visiting our Sydney Water talk webpage at **www.sydneywatertalk.com.au**.
